**Before you invest in any fund, consider how the Fund would work with your other investments and your tolerance for risk.**

This Fund is an alternative mutual fund. It may therefore invest in asset classes and/or use investment strategies that are not permitted for conventional mutual funds. The specific strategies that differentiate this Fund from other types of mutual funds may include: increased use of derivatives for hedging and non-hedging purposes; increased ability to sell securities short; and the ability to borrow cash to use for investment purposes. While these strategies may be used in accordance with the Fund’s investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

### What does the Fund invest in?

The investment objective of the Fund is to seek to achieve superior absolute and risk-adjusted returns as compared to balanced fund approaches, or a long-only equity fund, with the added benefits of protection and performance during sustained downward trends while earning a yield. This will be achieved by combining traditional assets with Auspice’s protective strategies on a near equal basis, which allows the Fund to benefit from the non-correlation of equity, fixed income and divergent alternative investments.

The Fund may use leverage through the use of cash borrowings, short sales and derivatives. If used, the fund will manage its risk in such a manner as to keep the absolute VaR under 20% of its net asset value. While these strategies may be used in accordance with the Fund’s investment objectives and strategies, during certain market conditions they may accelerate the pace at which your investment decreases in value.

**How risky is it?**

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

**Risk rating**

Auspice Capital Advisors Ltd. has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It does not tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the Fund's returns, refer to the risk section of the Fund's simplified prospectus.

**No guarantees**

Like most mutual funds, this Fund does not have any guarantees. You may not get back the money you invest.

<b>Fund expenses</b>	3.11%

The Fund may pay an annual and upon redemption of units, a performance fee equal to 15%, accrued for on a daily basis, of the positive amount by which the Series T net asset value before performance fees of the Series exceeds the high-water mark of such Series. For more details, please see the "Fees and Expenses Payable by the Funds" section of the Fund's simplified prospectus.

### More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Auspice pays the trailing commission to your representative's firm. It is based on the value of your investment. Specifically, the trailing commission equals 1% of the value (or \$10.00 for every \$1,000 invested) of all Series T units held by clients of such representatives which have not been redeemed by the payment date.

If you buy your Series T units of the Fund from us, you do not have to pay any trailer fees.

## 3. Other fees

You may have to pay other fees when you buy, hold, sell or switch units of the Fund depending on the advisor that you are using.

Fee	What you pay
