Auspice Capital Advisors Ltd. launches Auspice Diversified Trust and Auspice One Fund Trust as Public Alternative Mutual Funds

Calgary, Alberta – March 1, 2023: Auspice Capital Advisors Ltd. (Auspice) today announced the launch of Auspice Diversified Trust (ADT) and Auspice One Fund Trust (AOFT) as public alternative mutual funds that can be invested in by retail investors. The funds, previously only available to institutional and accredited investors on an exempt basis, will maintain their existing track records, including the 16+ year track record of the firm’s longest standing and flagship fund, Auspice Diversified Trust.

ADT provides investors with exposure to commodity and financial futures in addition to providing returns that are non-correlated to traditional equity, fixed income and most alternative strategies. A core goal of ADT, and defining attribute historically for many of its institutional clients, is to provide investors with performance and “crisis alpha” in times of significant equity correction. Recently, the commodity focus and potential inflation protection has also been a key consideration.

AOFT seeks to achieve superior absolute and risk-adjusted returns for investors as compared to balanced fund approaches, or a long-only equity fund, with the added benefits of protection and performance during sustained downward trends while earning a yield. The Auspice One Fund benefits from a rules-based active management core. It combines the long-term track record of Auspice with tactical active and passive income-oriented global growth equity and fixed income ETFs.

“We are excited to launch ADT and AOFT as two publicly traded alternative mutual funds. They were both previously offered on an exempt basis and can now be bought by all retail investors. ADT and AOFT are also well positioned to generate positive returns in this environment with interest rates, inflation, and volatility no longer compressed” said Tim Pickering, President of Auspice. *“While there are a number of resource equity funds, there are few funds that provide direct exposure to commodities in Canada, an even fewer managers that have the tenure and track record of Auspice.”*

About Auspice Capital Advisors Ltd.
